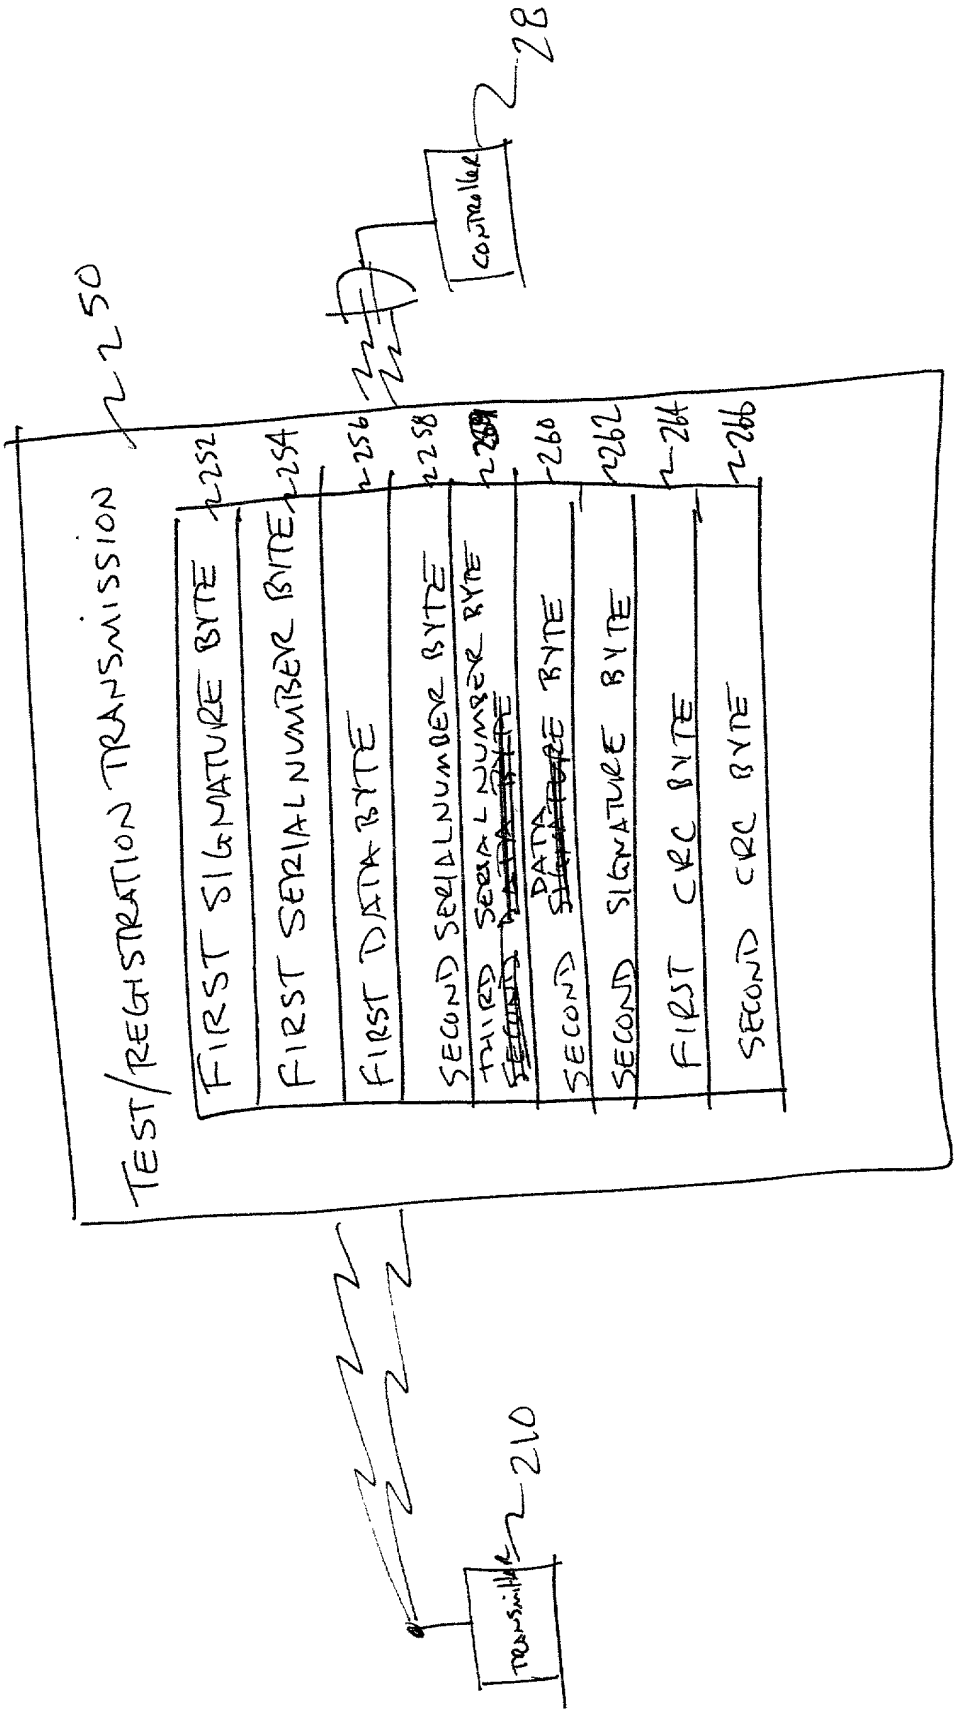

FIG. 4

FIG. 6 is a block diagram of a system for detecting motion of an unauthorized device. The system includes a wireless motion detecting camera 2504, a proper controller 2502, a malicious controller 2505, and a PC 2512. The camera 2504 is connected to the proper controller 2502 via an IR line of sight 2508. The proper controller 2502 is connected to the PC 2512. The malicious controller 2505 is connected to the proper controller 2502. The camera 2504 also includes a registration information block 2518 and a registration key block 2522. The registration information block 2518 includes fields for registration information, 1st sig byte, 1st s/n byte, 2nd sig byte, 2nd data byte, 2nd encryption key, 1st CRC, and 2nd CRC. The registration key block 2522 includes fields for registration key, 1st sig byte, 1st s/n byte, 2nd sig byte, 2nd data byte, 2nd encryption key, 1st CRC, and 2nd CRC. The camera 2504 also includes a transmitted serial number block 2507. The camera 2504 is also connected to an RF location block 2516 via an RF signal 2504.
